

# HERO POWER.

## 2020 HISTORICAL PRODUCT CONTENT LABEL<sup>1</sup>

In 2020, Hero Power Clean Energy Program included a Renewable Energy Certificate (REC) product that did not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see [www.green-e.org/rec](http://www.green-e.org/rec).

Hero Power Clean Energy Program matched 100% of your regionally procured electricity usage with RECs. In 2020, Hero Power Clean Energy Program included RECs from the following renewable resources.

Green-e Energy Certified New <sup>2</sup> Renewable Energy Credits in Hero Power Clean Energy Program		Generation Location
-Biomass	%	
-Geothermal	%	
-Hydroelectric <sup>3</sup>	%	
-Solar	%	
-Wind	100%	Iowa

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current (2020) average mix of resources supplying ComEd service territory includes: Coal (22%), Nuclear (35%), Oil (0%), Natural Gas (38%), Hydroelectric (1%), Wind (3%), Solar (0%) and Other (1%).
